Liverpool is a place ideally suited for school, FE and HE students to study and below are some of the tours on offer

### **Liverpool: a regenerated City**

The story of Liverpool over the past 30 years has been a remarkable one in terms of the way the City has changed. It hasn't always been an easy ride for this internationally renowned port, but it has been, ultimately, a successful one. The tour will view many of the locations in and around Liverpool, which have been central to the regeneration over recent decades; from factory closures in the late 70's, to the Toxteth riots of 1981, the International Garden Festival of 1984 and the Capital of Culture Year in 2008.

### **Liverpool: a tourism success story**

Since the early 1980's Liverpool has been transformed and of all the changes, the visitor industry has been one of the success stories. This industry is now valued at £3 billion with some 40,000 people employed within the industry across the Liverpool City Region. The walking tour will show, at first hand, the changes and will examine how tourism has played such a key role in the development of the city.
